

RAVI INDOREY

Full Stack Developer
📍Indore, India

My aim is to earn a position that uses my knowledge and helps the organization achieve its goals.

I am a driven individual who started with making small projects with HTML, CSS, and JS in high school. Later on, this list expanded with C, C#, Java, ASP.NET, JSP, PHP, Ruby, Python, Bootstrap, jQuery, PhoneGap, React, Redux, Android, React Native, TypeScript, MS-SQL, Oracle, PostgreSQL. My professional endeavors also exposed me to JIRA, Git, Scrum, testing, continuous integration and deployment, and Linux development environments.

EDUCATION

Illinois State University – Normal, USA

2014 - 2016

Master of Science in Information Systems. Along with the MS graduate degree I also received a graduate certificate of *Internet Application Development* and *System Analyst*.

Maulana Azad National Institute of Technology – Bhopal, India

2009 - 2013

Bachelor of Technology in Computer Science and Engineering. This helped me a lot in building a solid foundation for object-oriented programming, relational databases, software development process.

WORK EXPERIENCE

Freelancing – Indore, India - Full Stack Developer

01/2019–Present

I am currently working on the project of my own and some client projects. These projects involve Python, Django, JavaScript (ES6), ReactJS, Redux and TypeScript.

FeelRobotics – Amsterdam, Netherlands - Full Stack Developer

01/2018–01/2019

I worked on a diverse technical stack of Ruby on Rails, Django, Flask, ReactJS, Redux, AWS. We used CircleCI for continuous integration. I did lead a project based on React-Redux and Django. I was also code owner of important Django and RoR projects.

Freelancing – Indore, India - Full Stack Developer

01/2017–01/2018

I did work on multiple projects which mostly were Ruby on Rails based along with React. I also had a chance to work with PHP, CodeIgniter, and JSP.

Indian Students Association at ISU – Normal, USA - Webmaster

08/2014–08/2015

Worked with WordPress and JavaScript to develop and maintain the organization's website.
